

SHINE A LIGHT

[Verse 1]

Tuxedo coat and a big red car

Git everything to make me a superstar

I spend my time singing the blues

Got too much class to be wearing blue suede shoes

All my dreams belong to you

[Chorus]

Shine a light, shine a light

Shine a light, shine on me

Shine a light, shine a light

Shine a light, shine on me

If the man don't get ya the bulldogs will

Trade with them boys to get my pills

Shine a light, shine a light

Shine a light, shine on me

[Bridge Guitar Solo]

[Verse 2]

Tuxedo coat and a big red car
Git everything to make me a superstar
If the man don't get ya the bulldogs will
Trade with them boys to get my pills
All my dreams belong to you

[Chorus]

Shine a light, shine a light
Shine a light, shine on me

Shine a light, shine a light
Shine a light, shine on me

If the man don't get ya the bulldogs will
Trade with them boys to get my pills

Shine a light, shine a light
Shine a light, shine on me (**x 3**)

THE ANTHEM

I drink beer, and I like rum

You can tell right away where I'm coming from

Southern Rock and a touch of the Blues

We'll have a Van Zant summer, me, Stevie, and you

We all play the the rock and roll National Anthem

'Cause it's what we need for some dancin'

The worlds on fire and it's been burning

Seems to be backward step we're turnin'

Rock n' Roll and you do as you're told,

It can drive a good man bad

Johnny B's dead and gone, but Marty's got his hand

Michael J.'s got Mr. P, playing in his band

[CHORUS]

Instrumental outro

Me and Mr P

Well I shake when I walk, I do a little jelly roll too.

I shake when I walk, I do a little jelly roll too.

Well I need some inspiration

to make me heal and feel like new

Don't get no sleep only sit around and play the blues

Don't get no sleep only sit around and play the blues

Mr P.'s got me, so I'm telling you all the news

[Solo]

Send a text or an email, the telegram is way too slow

Send a text or an email, the telegram is way too slow

Or take it to the capital, down at the billion dollar show

Well I shake when I walk, I do a little jelly roll too.

I shake when I walk, I do a little jelly roll too.

Well I tell ya Mr Parkinson we're gonna rock and roll with you

Brown Dog Boogie

Barking from the hill tops, soakin' up the sun
Bangin' on an '88 and beltin' on the drums
Everybody needs a shot of rhythm and blues
Brown Dog Boogies, any old way you choose

The Brown Dog he chews a bone
He eats raw meat and digs Rolling Stones
Everybody needs a shot of rhythm and blues
Brown Dog boogie any old way you choose

CHORUS

Everybody's out there on the street
You can feel the rhythm of a thousand feet
Cash the music is loud and groovy
Stamp your feet to the Brown Dog Boogie

solo X 2

Verse 2
